High Efficiency Pre-Insulated Pipe

Rhinoflex[®] by HeatMaster^{SS}

High Efficiency, Flexible Pre-insulated Pipe

Your wood furnace is an investment designed to give your family long lasting comfort and energy independence. Use Rhinoflex pipe to make sure all your heat is delivered right to where you need it for as long as you own your furnace. Rhinoflex pipe offers the most efficient, rugged pre-insulated pipe on the market while being easy to install and economical.

Do it Once, Do it Right

Highest Efficiency

Rhinoflex by HeatMaster^{SS} will maximize the performance of your heating system, **using the Highest Efficiency closed cell foam in the industry.**

- Almost no heat is lost underground (Less than 1°F Heat Loss per 100ft).
- You save fuel and processing time.
- Better performance of your outdoor furnace and indoor heating system.
- Waterproof and air tight design.

Long Lasting

Our 25 year warranty is the longest in the industry.

The Heaviest, Most Rugged Outdoor Jacket Available

- High-density polyethylene outer jacket withstands work site handling, rocks and anything else you can throw at it.
- The Rugged Waterproof outer jacket protects the insulation and lines from water penetration and heat loss.
- UV protected to keep from fading and sun damage.

There are more than 25,000 miles of Rhinoflex pre-insulated pipe installed worldwide!

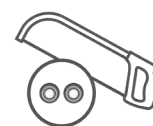

Easy to Install

The Ribbed Outer Jacket makes life easier during installation and operation because it offers:

- Greater flexibility during installation.
- Reduced expansion & contraction during heat/cool cycles.
- Highest efficiency design with smaller jacket diameter making trenching and installation easier.
- Labelled Pex A Pipe for easy identification of supply and return lines.
- Outer Jacket marked every 5 feet for easy measurement.
- Lightweight for easy handling.
- No special tools or equipment required for installation.

Pex A Oxygen Barrier Pipe
is the highest quality Pex pipe available

Easy to Cut
Can be cut with a handsaw

When you install your furnace, *Do it Once, Do it Right* with Rhinoflex by HeatMaster^{SS} Pre-insulated Pipe.

The Ultra Efficient Pipe of Choice

Inches	Nominal Insulation Thickness	Jacket OD	Jacket Thickness	Bending Radius	Weight lb/ft
0.75"	0.75"	3.58"	0.09	2'5"	0.8
1.00"	1.70"	4.45"	0.09	3'3"	1.50
1.25"	1.20"	4.45"	0.10	3'3"	1.70
1.50"	1.25"	6.42"	0.13	4'0"	2.60
2.00"	1.50"	7.20"	0.13	4'5"	3.40
2.50"	1.50"	7.20"	0.13	4'5"	3.80

HeatMaster^{ss} is a family-owned company which has manufactured and distributed its own line of outdoor furnaces since 2001. Our dedicated staff have many years of knowledge and experience and we continually research new and innovative ways to improve our products.

HeatMaster^{ss} offers prompt delivery, expert installation, and the highest standard of after-sales service. We thoroughly inspect and test every furnace before it leaves our plant.

After consulting with one of our dealers, you'll be able to choose the right furnace to meet your needs.
